

Back-End Developer

# Bogdan Staziiev

I work as an engineer mine surveyor at the mine, at the same time I am creating a 3D model of the mine in the K-Mine program. Now I am changing my life, therefore, in addition to my main job, I am learning programming in Golang. I don't miss any opportunity to learn new things. Now I'm 30 and I gave myself a year to completely change my life.
